

## Open Season On Pheasants Lures Omaha Students

Many Go Outstate;  
Plenty Of  
Birds

### ALL GET THE LIMIT

Outstate Nebraska and South Dakota proved a mecca for a number of Municipal university students last Sunday when the 1933 open season on pheasants began.

Hunters in all instances bagged the limit which is four roosters and one hen. They reported more pheasants than any other time in the past.

Stanley Putnam, '34, was the only Municipal university student to leave the state in quest of birds. With his father he went to Spencer, South Dakota where "pheasants were plentiful and not at all difficult to get the limit."

#### Hard To Get Limit

The two Fouts twins, Leon and Lowell, went to Shelby, Nebraska, where they bagged the limit. They were accompanied by Dr. C. L. (Continued on page 3)

## Women's Building Next To Present Faculty Building

'Comfortable Place' Says Dean  
Stevens of Planned  
Arrangement

"University women will soon have a comfortable place in which to spend their leisure hours, between classes," says Mrs. Rene Stevens, Dean of Women.

The university has rented the house next door to the Men's Faculty building for women faculty members' offices, and for women students of the university. Faculty members have already moved their offices to the upstairs rooms.

The ground floor is to be wholly at the disposal of women students. (Continued on page 2)

## More Delay In Uni. Building Application

Municipal university's proposal to borrow \$750,000 from the federal government was to come up before the state public works board at Fremont Thursday morning, October 26, but was postponed until a later date.

Two members of the judiciary committee of the regents, in charge of the project, were prevented from meeting to prepare the application due to other duties, President W. E. Sealock said Tuesday.

## C. O. C. STUDIES UNI. LOAN PLAN

The Municipal affairs committee of the Omaha Chamber of Commerce is studying the proposal of the Municipal university regents to secure a federal loan to finance new buildings.

The committee feels that, if the university could acquire a permanent campus site with the \$200,000 surplus it already has on hand, the money necessary for buildings could be secured from the federal government. The loan could be paid in the future from one mill levy which the regents are now allowed.

## Place "Tips" In Gateway Mailbox In Hall Entrance

The Gateway "news tips" cards that have been placed at various points about the campus are for the use of students and faculty members who have possible stories for the paper.

Merely fill out as much of the card as you can, and place it in The Gateway mailbox at the entrance to Joslyn hall. We'll do the rest. No item is too small or trivial.

To insure prompt publication, place the "tip" in the mailbox before Wednesday of each week.

## Fourteen Percent Of Freshman Pass English Examination

Recommend 41 Percent to  
Eng. 212, 45 Percent  
to Eng. III

Fourteen percent of the freshmen were declared to have met all university English requirements, as a result of the English proficiency examination September 11, according to Dr. V. Royce West, chairman of the department of English.

A new system is being used this year. Previously all freshmen were required to take six credit hours of English. Now, a certain grade in the freshman English exam exempts the student from this requirement.

The examination contained two parts: reactions on three certain statements, and an examination in English usage.

According to the statistics of the examination at the beginning of the semester, Brownell hall lead the list with one hundred percent, Central came next with 17.18 percent, North with 16.66 percent, South with 15.4 percent, Benson with 12.5 percent, and Tech with 8 percent.

Those who were not absolved from English were divided into two classes English 212, and English 111. Forty-one percent were recommended to English 212 and forty-five percent to English 111.

## Seventy Freshmen Take Psychology Exam Tomorrow

Seventy of 252 new students who entered the university this fall failed to take the scholastic aptitude test given September 11. This examination must be taken by all freshmen upon entrance to the Municipal University.

It is an achievement test rather than an intelligence test according to Dr. W. H. Thompson, head of the department of psychology. The results are filed and used to predict the college future of the individuals. Students are not notified of their rating in this test.

Many of the freshmen who didn't take it were late in registering or in some manner were misinformed as to the necessity of taking it. For these students the test will be given again Saturday, October 28 in room 6, at nine o'clock.

Dr. T. Earl Sullenger spoke on "Prevention of Juvenile Delinquency" at the meeting of the Belvidere P. T. A. Friday evening, October 20.

## Students Favor Activities Tax For Omaha U.

Believe School Spirit  
Would Increase  
As Result

### NO ONE OPPOSED

On the campus, in the halls, in the gym, on the street cars—everywhere Municipal University students are talking about the Activities Tax.

"It's a good thing," "We ought to have it," and "We need it," are some of the frequent remarks that emanate from the university and vicinity.

During the past week, the Inquiring Reporter asked a representative body of students to make a statement on their position in regards to the Activities Tax. Not one dissenting voice was heard. Read 'em and think:

Joe Broz: "I'm in favor of it. Everyone knows we need an annual, a Gateway, and increased attendance at athletic events. The only way we can have all three is to adopt an activities tax."

Carson Rogers: "Sure I'm in favor of it. Who wouldn't be? It's time we took such a step toward promoting school spirit."

Frank Crawford: "I'm surprised Omaha University hasn't adopted an activities tax before this. A year-book and a big attendance at athletic events." (Continued on page 2)

## German Language Of 'Cultural Benefit' Says Prof. Mueller

Science, Engineering  
Fields Use German  
Scientific Works

"The study of the German language is of cultural benefit to any student, particularly those entering the scientific and engineering fields," said Miss Bertha Mueller to a reporter last Tuesday. "Much scientific literature is written in German."

"Most students are inclined to look upon the study of language from a purely utilitarian point of view. They fail to see the cultural value. In order to appreciate a language, three or four years of it should be taken. Some of this should be taken in high school," Miss Mueller stated that the NRA has exceeded her expectations by its (Continued on page 3)

## First Pledge Dance Held Tonight in Gym, Hallo'een Decorations

200 Bids Out; No Stags,  
Ritchie's Orchestra  
Will Play

The first of eight pledge dances this season will be held tonight in the gymnasium by the Gamma Sigma Omicron sorority. Two hundred bids have been issued. There will be no stags. Halloween colors and decorations will be used. Warren Ritchie's dance orchestra will play the music.

The next pledge dance will be given by the Theta Phi Delta fraternity, Friday, November 3.

## Circulate Pamphlet Protesting Buildings For Municipal Uni.

A pamphlet circulated by the Citizens Taxpayers League, protesting the proposal to secure new buildings for Municipal university appeared in Omaha Wednesday, October 25.

The circular urged people to write to government officials, protesting the proposed building project.

Among the officials to whom people were urged to write was Congressman Edward R. Burke of this district, who has been active in urging the Board of Regents to apply for a federal loan.

## Music Department Furnishes Program For Neb. Teachers

Bush Plays Organ, Quartet  
Entertains, College  
Choir Sings

The music department of the Omaha Municipal university, headed by Mr. Martin Bush, furnished the musical program for the meeting of District No. 2 of the Nebraska State Teachers' association yesterday afternoon at the Joslyn Memorial.

Mr. Bush opened the program with a group of organ numbers:

- a. Toccata ..... Bach
- b. Carrillon ..... Sowerly
- c. Marche aux Flambeaux

Following, the University string quartet, composed of Mr. Henry Cox, first violin; James Peterson, second violin; Glendora McLean, viola; and William Baynes, cello; offered the following group of numbers:

- a. Largo ..... Haydn
- b. Minuet in D Major....
- .....Mozart-Cox
- c. Rondo in G Major.Mozart-Cox

(Continued on page 3)

## Pi Omega's Meet New Sponsor At Founder's Banquet

The annual Founders' Day banquet of the Pi Omega Pi was held Thursday, October 26, at the Fontenelle Hotel.

Miss Pauline Nelson was toast-mistress. Speeches were given by Mrs. V. H. Vartanian, sponsor; Ellen Ann Slader, alumnae member; Dorothy Hansen, president of the actives and Virginia Lee Long, of the pledges Amy Rohacek accompanied a group of pledges who sang songs written by former pledges. Mrs. Nell Griscom Gillard, the new sponsor, was introduced.

Arrangements for the banquet were made by Fern Thomsen, Mrs. Fred J. Driver, Elizabeth Sayles, and Amy Rohacek.

## Students Will Hear Address On Germany

Dr. Schoeneman, of Germany, will address Municipal University students at assembly, Wednesday, November 1, at 10 o'clock. He will speak on Present Day Germany.

Dr. Schoeneman is the author of "Die Kunst der Massenbeeinflussung in Amerika," (The Art of Influencing the Masses in America). He has also written works on both German and American literature.

## Cards To Meet Tough Washburn Gridders Tonight

Ichabods Favored To  
Win Over  
Omaha

### LOSE ONLY TWO

It will be an impaired but courageous band of Cardinal footballers that take the field against Coach Ernest Bear's Washburn college Ichabods at Topeka, Kan., tonight.

The contest has an interesting background. Washburn has defeated Pittsburg (Kan.) State Teachers, 6 to 0; Emporia college, 6 to 3; and Baker university, 26 to 0; and has lost only to Haskell, 6 to 0, and Tulsa university, 7 to 0. Last Saturday Tulsa University defeated Kansas, 7 to 0. The week before Kansas held the highly touted Notre Dame eleven to a scoreless tie.

Several members of the Omaha squad are on the injury list. Leon Fouts and Elmer Ossian, varsity ends, are recovering from hurts in the Wayne Normal contest. Fouts has a hip injury and Ossian irritated an old shoulder injury. Bill Pressley, outstanding colored back, is still favoring a side injury received in scrimmage about two weeks ago. Others having minor hurts are Harold Johnk, Norman Sorensen, Leo Pearey, Don Minikus, Jimmie James.

(Continued on page 3)

## Directory on Campus Many Weeks Before It Ordinarily Appears

Lists Students, Faculty, and  
Members of Greek  
Organizations

The student directory was on the campus Wednesday, Oct. 18, several weeks earlier in the year than it usually makes its appearance.

A complete list of students' names, addresses, telephone numbers, and classifications was included. Actives and pledges of fraternities and sororities were specially listed. Faculty members and their positions, addresses and telephone numbers were also given.

Over fifty local business houses were represented in the advertisements.

The book is selling for fifty cents to faculty members and others who are not students of the university. Students are being given a special ten cent rate.

Duane Butler '35 was editor and business manager of the publication. Assisting him were Dorothy Bergmann, George Knippeth, Minette Myers, O'Linn McGuire, Joe Greenstone, Marshall Saup, and Woodrow Tietzort.

## THATCHER PLAYS ORGAN SUNDAY

George Thatcher, '34, will play the organ at a candle-lighting service at the First Unitarian Church, Sunday, October 29, at 8 o'clock.

The program is being planned by young people of the church. Helen Orr Pearson, daughter of Professor Orr, and Lillian MacDougal will light the candles as part of the ceremony. Edward Holyoke will do the readings.

Dr. Lawrence Plank, minister of the church, will speak on "The Significance of Youth in the Life of the World."

## WE QUALIFY

**T**O be eligible to receive financial aid from the public works board, certain stipulated requirements have to be met by the applicant.

Briefly, they are: the project must be socially desirable, should contribute to the stimulation of employment and industry, must be sound from an engineering and technical standpoint, and the lease entered into between the applicant and the government must be legally sound.

These provisions are strictly carried out by the state public works board in making loans, but we believe that the Municipal university building project fully meets every one of these demands.

No one denies that the project is socially desirable. The contributions that an expanded Municipal university could make to the educational and cultural life of Omaha are inestimable. Employment and industry would be greatly stimulated by the building project. Labor gets a large portion of every dollar spent on a building project. The purchase of materials would indirectly stimulate other employment in addition to furthering industrial recovery.

The project is sound from an engineering point of view. Competent architects have drawn the plans. The latest improvements in building construction, especially in regard to university buildings, has been investigated and full use made of the findings. There need be no worry that the new buildings will not be sound from an engineering and technical standpoint.

The legal enforceability of the lease between the government and the university should present no difficulties. The regents are empowered to levy a one mill tax. The proceeds from this will be used to pay the rent on the buildings and to meet interest payments. In addition to this, students fees each year are more than double the rent and interest payments.

The city does not have to float any bonds. It is not plunging the city further into debt. The United States government is simply constructing new buildings and leasing them to the regents. It is the cheapest and quickest way in which the Municipal university can secure badly needed buildings.

These arguments and those advanced in last week's Gateway refute we believe, the contentions brought forward by the pamphlet issued by the Citizens Taxpayers League Wednesday, October 25.

Private report tells us that Mr. Oran Shaw has a quantity of very fine steel waste baskets in his storeroom. He is saving them for the new buildings, no doubt.

## TOO MUCH MEMORIZING

The one bright spot in the present educational muddle is the reorganization of the curriculum in a number of progressive colleges, is the opinion expressed by Dr. William J. Mayo, outstanding doctor and educationist, recently.

"We have been teaching our youth too much memorizing of things of the past," he declared. "It does not matter one whit how much knowledge of the principles of medicine, law, engineering or any other profession a youth may have poured into his memory if he does not know how to use it."

In close harmony with this viewpoint is the statement made by Dr. Claude W. Stimson in last week's Gateway. Dr. Stimson said:

"Formerly students were trained to have memorizing minds. That is, a brilliant student had at his command countless facts gleaned from reading and lectures. The present-day student has at his command insight."

Dr. Mayo commented favorably on curricular changes at the University of Minnesota. These changes are quite similar to the ones effected by the Municipal University this fall. The emphasis in both universities is to give the student opportunity and encouragement to browse in the world of books.

## STUDENT UNREST

Student unrest in widely separated parts of the world was told in an Associated Press despatch in the World-Herald Saturday, October 21. Motives for the unrest in different parts of the world were almost as widely separated as their scenes of action.

In Monterey, Mexico, it was politics. In Puerto Rico the entire student body protested the appointment of a socialist to the board of trustees. In Barcelona, Spain, medical students were on strike in protest against the adoption of the Catalan language, and because the university is "badly organized."

A one hour daily increase in the time allotted for study was sufficient to cause students to strike and demand the resignation of the director of schools in Chihuahua, Mexico. It would be interesting to observe the reaction of some students hereabouts if they were forced to study one hour a day, let alone imposing an additional hour upon them.

Student unrest has reared its head at Municipal university during the past two weeks. We refer to those students who regularly use the library. The powers that be waited until the coming of cool weather before they found it necessary to install radiators in the library. For several days men worked in the library, pounding on radiators and ripping up the floor.

The library, as a result, was turned from a quiet secluded nook into the noisiest spot on the campus. The effect of this on students who are studying was disastrous. Many shunned the library as much as they could. With more frequent use of the library by students due to the vast reading requirements of the new curriculum, it is needless to say their work suffered.

Fortunately, the work is finished and the library status quo has been restored. In the future, however, disturbances of this kind can be eliminated by someone exercising a little forethought. The heating plant could well be inspected in the summer and any repairs made then. Surely this is not asking too much.

Dr. Sullenger's report on "Summer Playgrounds for Children" will appear in next week's issue of "The Quarterly." This is an article following similar report in the June issue of that magazine.

## Sociology Fraternity Meeting Is Changed

The date and place of meeting of Alpha Kappa Delta, Sociology fraternity, has been changed to Monday evening, October 30, at the Fontenelle.

Dr. Lyman Harris, professor of History, will speak on the "Social Significance of Disarmament Conferences."

Although Coach Hartman is busy with the football team, Omaha University's basketball squad has been tossing the basketball around in the gym whenever the boys can get together for a little practice.

James Fisher, '34, halfback on the varsity team, has again reported for practice and is expected to add much reserve strength to the squad.

The Delta Sigma Omicron and Alpha Sigma Lambda, North High fraternities, will play football at Fontenelle park, Sunday, October 29. Carol Bobbitt, Bill Barrie, Joe Scarpa, and Boris Thogerson, University students, will take part in the game.

Kenneth Hubler, '33, attended the Wayne-Omaha football game. He is studying for the ministry at the Presbyterian Theological Seminary in Omaha where he was awarded a scholarship.

Meyer Raben, '37, returned to school this week after being confined home with a bad cold for several days.

A severe cold kept Jess Smiley, '36, at home last week. He returned to school Monday.

Mary Carns, who attended Doane college during her freshman and sophomore years, is continuing her studies at Municipal university.

Claire Rhodes, ex '35, is attending Nebraska university.

Robert Gernant, ex '36, was at Municipal university last week. He played the piano for dancers in the gym during the noon hour.

A poem, "Rain and Red," by Marador Cropper, '37, was published in the Friday, October 20 issue of the Register, student newspaper at Omaha Central High.

"Bungy" Gordon and Dave Biddles, both members of last year's football team, attended the Wayne-Omaha football game at League park Friday, October 20.

Milton Moore, an extension student last year, is attending Evansville college, Evansville, Indiana. He is planning to return to Omaha next fall and enroll here.

Paul Polmantier, '34, is a night clerk at the Y. M. C. A. He formerly worked in the boy's division of the "Y."

## WOMEN'S FACULTY BUILDING OPENED

(Continued from page 1)

There are four large rooms, which may be used for study, and also a kitchen. The two front rooms will be accessible to student organizations which wish to meet there. The other two rooms may be shut off from the others.

Plans are being made so that students may have luncheons at the Women's Faculty building, according to Dean Stevens. She hopes that later on the university may be able to purchase a few kitchen utensils. Furniture for the downstairs rooms has not yet been selected.

## THRU THE KEYHOLE

Didn't know whether I'd get this column written or not but I just got some dope that won't keep, so here it is. Youse gals had better start bating if you want a date with O'Brien for any of these pledge dances. His schedule so far is: Gamma—Long; Phi Delt—Munt; Theta—Shellberg; Phi Sig—Knode. And another thing, Tietzort and Walker are no longer going steady so they're both in the market. Wonder if Weber and Vogel are still "that way". Wish Weber would make up their minds.

Race seems to be going for that little Sig Chi pledge. How about it, Steen? And this Kowalski-Whinnery match is still burning. Wonder who Wolf's date is for the Gamma. Say, Johnson, how about a game of bridge? All of which reminds me that there are a couple of sorority sisters on this campus that might stop trying to cut each other's throats.

Hey, Crawford, ye olde sax player, get right in there and start pitching. O'Brien says he's not interested. And for that little tip ye olde Keyholer deserves some of that pheasant dinner. Latest reports on the Homecoming Dance: Higgins was there with her little brother. Omaha U. gals are off the list. The Jockey Club is now the place to get the choice dates. At least so Saxton says. Wonder what about the one and lonely in Chicago.

At last Moucka broke down.... Anderson is now wearing that much discussed Theta pin....And then again, as one was added, one was taken back....We hope Al Moshier will learn to take it after the tamping out he was given by Fouts and Sorensen....Babbling Brooks Butler would like to have Minnie back again but then he would rather not fight it out with a fraternity brother.... Bob Saxton said it would be too bad if his name was put into this column so here it is....We got Wayne's goat at the game the other night....but we found it was all a mistake.... it wasn't Wayne's goat; it was Dixie Karne's goat.

## STUDENTS FOR ACTIVITY TAX FOR OMAHA UNI.

(Continued from page 1)

letic events show that a University is upon its toes."

Don Lauretson: "It's O. K. It's the only way we can hope for an Annual. I'm in favor of it."

Robert Norelius: "As I understand it, we pay an incidental fee of one dollar now. Fifty cents goes toward The Gateway. With the activities tax, we could see all athletic contests and get a year-book, too."

Ralph Marshall: "I'm in favor of it. Why not? We need an annual, and we need bigger attendance at the games. We can get both by adopting an activities tax."

John Nixon: "That would be swell. We ought to get it by next semester at the very latest. If we don't get any year book, what have we to show for our college life?"

Purnell Thomas: "Surely I want an activities tax. I've been hearing a lot about it, and I can't imagine why it shouldn't be adopted."

Glen Taylor: "It's a good idea. I want an annual, so when I get back to Iowa I can show it to the folks back home. Seriously, it would be a good thing."

George Segerhammer: "It's a good thing. Everyone ought to support it. The whole student body should get behind it until we adopt a tax. We would get a lot of beneficial things at a very cheap price."

IT PAYS TO LOOK WELL  
3703 North 24th Street

## Dishing Out Sport Hash

"SHOW me the way to go home, I'm tired and want to go to bed," is likely to be the theme song of most of the Cardinal footballers tonight after the Washburn tussle at Topeka, Kan.

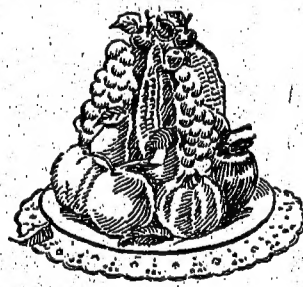

But the opening remark is not to be taken sarcastically. Omaha will have every right to be GOOD and tired after that contest. Coach Hartman's men will be facing their stiffest test of the season. It is probably the biggest game any Omaha eleven has played. The battle will be a bruising, battering affair. So, if Omaha loses, as the odds seem to point that it will, supporters of the team should think twice about any remark they might make to the players when they return.

It's no fun for a football player to extend himself in a game and then have someone jibe him about some mistake he made. When the game is over—it's OVER. Forget about the mistakes. Remember a spectator has little right to tell a football player what he should have done—for after all—who's playing the game?

THE Cardinals will be fighting tonight, maybe a futile fight and maybe not, but whatever the outcome of the game it will do all of us well, including this writer, to keep in mind that old saying "It isn't whether you won or lost, it's how you played the game that counts." Then put the Cardinals in the same category.

It is to be admitted that the Omaha team has not functioned as it is able because of several contradicting factors. But there are contradicting factors in any college or university, some more than others, of course. And the footballers have shown that they can overcome these distracting factors in their scrimmages and games. If football players and student supporters will try to make the best of every uncomfortable situation that comes up, there's little doubt that coordination and cooperation can be obtained, and obtained CHEERFULLY and WILLINGLY.

PAUL LANGE, Sports Editor

## For Hallowe'en

Serve Fairmont's Ice Cream molded and decorated especially for the occasion. Here are a few suggestions:

Pumpkin  
Ear of Corn  
Oat  
Apple  
Pumpkin Pie  
Witch

The Peak of Quality

## Wayne Gridders Tie Cardinals

Cards Outplay Wayne By Big Margin; Miss Try for Point

By Bob Race

Two thousand homecomers saw Omaha university and Wayne Normal fight to a 6-to-6 tie at Western League park last Friday night. It is the third straight year the two elevens have deadlocked.

Fullback Carol Gast of Wayne started the scoring early in the third quarter when he took the ball on his own 20-yard line and scampered around right end and ran down the sidelines for the touchdown. His plunge for the extra point failed.

The Cardinals launched a drive late in the third quarter that carried the pigskin from their own 20-yard stripe to the Wayne 10-yard marker as the period ended. On the second play of the final quarter, Gene Hoover spun over for the counter. Hoover's try-for-point was just barely missed.

### Outdown Wayne

Coach Hartman's Redbirds rallied again near the close of the game when they plunged from their own 32-yard line to the Wildcat 11-yard stripe, but a pass Hoover to Leon Fouts, in the Wayne end zone was short.

The Hartman eleven outplayed Wayne, gaining 13 first downs to Wayne's 7, and making 239 yards from scrimmage to Wayne's 169. Leo Pearey played a remarkable game in the Omaha backfield and Norman and Howard Sorensen and Carl Johnson stood out on the line. Gast was Wayne's individual star.

## W. A. A. Hallowe'en Party For Members

The W. A. A. held a Hallowe'en party Wednesday evening, October 25, at 7:30 in the gymnasium, in honor of girls who have recently joined the organization.

The gymnasium was decorated in real Hallowe'en style according to the committee in charge, composed of Mary Brown, chairman, Eleanor Johnson, and Virginia Boucher.

Among those who attended were: Ellouise Jetter, senior; Barbara Fair, Eileen Leppert, and Honora Swiger, juniors; June Erickson, Bess Greer, Lucile Griffiths, Frances Harsha, Helen M. Johnson, Jane Masters, and Kathryn Shaw, sophomores; Dorothy Busch, Ellen Forehead, Helen Frohardt, Marguerite Fulton, Mariana Gardner, Lucille Hall, Vegas Hiatt, Kathryn Johnson, Thelma Kristensen, Mary E. Maxwell, and Mary Jane Stamm, freshmen.

## TO MEET WASHBURN GRIDSTERS TONIGHT

(Continued from page 1)

The probable starting lineup will have Minikus and James at ends; Howard and Norman Sorensen at tackles; Frank Hummel and Carl Johnson at guards; Lowell Fouts at center; Gene Hoover at quarterback; Fred Tyler, Larry Hall or James Fischer, halfbacks and Leo Pearey, fullback.

## MUSIC DEPARTMENT FURNISHES PROGRAM

(Continued from page 1)

The a cappella choir, under the direction of Mrs. Carol M. Pitts, concluded the program with a group of four songs:

- O Praise Ye...Tschaiowski
- Music in the Mine.....Dett
- Evening on the Sava.....Hungarian Folk Song
- Hear My Prayer.....Gretchaninof

It was the choir's first public appearance this fall.

## Student Explains Mechanical Details of New Introductory Courses For Underclassmen

BY CHARLES SEVICK

Much has been written to explain the content and objectives of the general introductory courses. Everyone understands that their purpose is to give the student a general cultural background. But little has been said concerning their mechanical details, and it appears that they are generally misunderstood.

### Tutorial System Improvement

First, what is the tutorial system? It is merely a needed improvement on the class recitation method. Under the latter method the professor attempts to question every student during the class period and grades him on this partial recitation. Under the tutorial system, however, the student recites on everything he has read every week; the conference is usually about fifteen minutes in length, enabling the professor to accurately grade the student's work and to become acquainted with him.

### Much Library Reading

The assignments are all library readings, and no text book is used. Prominent among the numerous disadvantages of the text book is the fact that no one book adequately covers every aspect of a single topic, while in a library-centered course the student is directed to read the clearest available treatment of every topic.

## PHEASANT HUNTING ATTRACTS STUDENTS

(Continued from page 1)

Husted of Falls City and his son, Charles, Jr., a student at the Nebraska Medical college. This was the only group that were aided by hunting dogs.

Leon Fouts reported that pheasants were not as plentiful as everyone says. They got the limit but had to hunt all day to do so. He believes, however, that there were more pheasants in the northern part of the state.

Harold Eggen, '34, hunted in the vicinity of Humphrey and Madison, Nebr. Accompanied by his brother, he had little difficulty in securing the limit. Bob Barbee, '36, and his father went to Ashland, Nebr., where they bagged the limit.

### To Grand Island

O'Linn "Mickey" McGuire went to Leigh, Nebr. Though he did not get the limit, he found hunting excellent. He brought home three pheasants, ten jackrabbits, two squirrels and ten pigeons.

Clifford Anderson and John Moucka, both '36, bagged the limit in the vicinity of Grand Island, Nebr. They reported pheasants plentiful.

Tom Organ and Randolph Claassen, both '35, reported that "it was easy to get the limit" near Spaulding, Neb. Claassen also went to Wayne, Nebr. yesterday afternoon to hunt pheasants.

## New Officers Elected At "YW" Meeting

Officers were elected by the Y. W. C. A. at a meeting in room 2 Wednesday, October 25. They are:

Eleanor Larson, vice-president; Cecil DeLong, secretary-treasurer, and June Erickson, reporter. The president, Mary Rigg, was elected earlier in the year.

A library-centered course also enables the student to become acquainted with the library. He learns how to find the best books and how to use them, for he is required to discuss intelligently what he has read.

### Duties Are Eligible

One of the most common accusations brought against the new system is that the student's duties are loose and vague. This is not true. On the contrary, four specific requirements are made of the student each week. They are:

1. He is required to read exact assignments.
2. He must attend lectures, which are intended to supplement and give significance to the readings.
3. He is examined orally on the readings by a tutor.
4. He attends group meetings where he discusses the lectures with his fellow students.

### Many Are Confused

Many people confuse this system with the Chicago University plan. Actually, the two methods have but one feature in common, namely, in their arrangement of the Freshman classes into four divisional courses.

Finally, it should be made clear that this system is not a radical experiment, but is a copy of the traditional Oxford-Cambridge system.

(Mr. Sevick took part in Dr. Payne's recent symposium on college curricula.)

## GERMAN LANGUAGE IS OF 'CULTURAL BENEFIT'

(Continued from page 1)

marked success. She believes, however, that a fundamental change must be made in order to prevent a recurrence of this depression.

Miss Mueller, instructor of German, received her B. A. degree from Northwestern university, and her M. A. degree from the University of Wisconsin. She is now working for her Ph. D. degree. At Northwestern she was active in dramatic and literary societies. At Wisconsin she was a member of the German Club. The University of Wisconsin, she said, supports a German house on the campus. In this house the only language spoken is German. German periodicals are subscribed to, and a library of German books is maintained. Residence in this house is limited to those who intend to teach the language.

## Council Will Meet Soon To Talk Tax

The Student Council will meet at 12:15 Wednesday, November 1 in room 17, President Woodie Tietz said Thursday, October 26.

The meeting will be an open discussion for council members and the council's policy toward an activity tax will be brought up, he declared.

## Fouts To Organize Janitors Express Basketball Squad

Lowell Fouts, '34, manager of the Janitor's Express basketball team, has asked all students eligible for the team to report to him as soon as possible.

The Janitor's Express, composed of students who do janitorial work about the University, compiled an enviable record last year, winning 15 out of 17 games.

## First To Apply Will Get Pan Hel Dates

At a special meeting of the Pan Hellenic Association Wednesday noon, it was definitely decided that November 1 should be the open date to receive application for dance dates for Greek organizations.

It was also agreed that the first application to be turned in should receive first consideration for a single date.

A committee composed of Minnette Myers—Pi O, Helen Svoboda—Gamma, Lorraine Larson—Sig Chi, Robert Johnson—Theta, and Professor Irwin Hammer—faculty, was chosen to draw it up. The new constitution will probably be voted upon at the next meeting.

## No Official Dance Held In Connection With Homecoming

THE dance at Peony Park following the Wayne-Omaha football game Friday night, October 13 was not a part of the official homecoming activities. Neither the Student Council nor the Alumni Association were connected with the event.

Although under the direction of two Municipal university students, the dance was a private affair. An article in last week's Gateway gave the impression that it was an official part of homecoming.

## Tournament Ends With Few Baskets

Instructor Grossman Hopes To Match The Winners

A smooth working No. 2 team walked off with the men's nine o'clock gym basketball championship when they beat team No. 3 in the finals played Monday. The score was 12 to 3.

Ryan and Marshall, No. 2 forwards, flipped in two field goals each for eight of their team's 12 points. Henderson, playing guard, took time enough to score three points. Brown, center, sank a free throw that put No. 2 that much farther away from the No. 3 squad.

Today No. 1 meets No. 3 for the championship of the 10 o'clock class. Lee Grossman, assistant physical director, said efforts would be made to match the winner of today's game with team No. 2 of the nine o'clock class. The most suitable time would probably be in the afternoon, he said. Another tournament according to Grossman, will be held later this semester.

## French Club To Meet Wednesday

A review by Josephine Carroll of a French article, "What France thinks of the N. R. A." will feature the French Club meeting Wednesday evening, November 1.

The remainder of the evening will be devoted to the singing French songs and playing games. Refreshments will be served.

"I would like to have all those who expect to attend inform me before Wednesday noon," Ruth Wallace, president of the club stated.

## YOUR SCHOLASTIC SUCCESS

### May Depend On Reading This Ad

School work is hard. It requires long hours indoors. It often entails lack of sleep, and worry. Some students go to pieces, physically and mentally, under the strain.

Students, of all people, need Vitamin D milk. Rays of sunshine on exposed skin have the same healthful effect as the Vitamin D in our Vitamin D milk—but students have little chance to receive even the benefits of the indirect rays of fall and winter sunshine.

The Vitamin D added to this milk helps the body assimilate minerals, richly supplied in milk, which are essential to health.

Maintain that reserve of energy and good health so necessary to scholastic success, with

ROBERTS VITAMIN D MILK

## German Club Hikes In Forest Reserve; Sing German Songs

**Miss Mueller Tells Campfire Story; Mary Rigg Sings Solo**

The German Club hiked through the Gifford forest reserve last Sunday afternoon, built a campfire on the river banks near the walking club shack, and were entertained by a German musical program and a story in German by Miss Bertha Mueller, sponsor of the club.

The program, outside of Miss Mueller's story, consisted of group singing of old German songs and a solo in German by Mary Rigg, '35.

A group of eleven started at three o'clock along the Fort Crook highway to Camp Brewster. They passed Inspiration point, hiked through the woods to the railroad tracks, and took the White trail to a spot near the Walking club shack, where the program was held.

Members of the party were: Flora Mae Handley, Ruth Brodbeck, Marie Ditsin, Eileen Leppert, John Rioran, Robert Norelius, Mary Rigg, Peggy Little, Miss Mueller, and Dr. and Mrs. V. Royce West.

## Homecoming Parade Five Blocks Long

Municipal university students love a parade, especially a home-coming parade. Over five blocks of cars, decorated with red and black ribbons dinned and tooted their way to League Park from the university campus Friday afternoon.

Fraternities, sororities, and barbs all took part in the home-coming program. Led by Woodrow Tietz, '35, president of the student council, the array of automobiles loaded with students wended its noisy way to the park through the business district of Omaha.

## Sigma Tau Delta Entertains Pledges

Eleven students recently elected to Sigma Tau Delta were pledged at a party held in Jay Planteen's cottage near Valley, Nebraska, Wednesday evening.

The pledges are Mae L. Barnum, Thresa Clark, Pearl Dansky, Ralph Kahn, Oscar Nelson, Maxine Schnurmann, Charles Sevik, Helen Svoboda, George Thatcher, Frank Underwood, and Russell Widoe.

A picnic supper was served before the pledging ceremony. Neva Heflin read some of her own poems. Dr. W. Gilbert Jones, dean of the School of Fine Arts, read the grave-diggers' scene from "Hamlet." Afterwards games were played. Copies of "The Rectangle," the literary magazine of the national organization, were distributed.

## Nothing to Argue, So No Debate Club

The Omaha University Debate club has decided to hold no further meetings until the state debate topic has been decided upon. As soon as the question is settled the club will gather material, pro and con and resume meeting.

The school teams have not yet been selected and there is an opportunity for anyone interested in debating to try out.

Dr. Benjamin Boyce, sponsor, has invited all interested students. The next meeting will be announced in The Gateway and a notice will be posted upon the bulletin board. Meetings are held Monday evenings at 7 P. M.

Miss Alice Smith, assistant registrar, has been spending the past week with friends in Chicago.

"The goal of foreign language teaching," is the title of an address Dr. V. B. West, acting head of the language department, will deliver before the Latin section of the Nebraska State Teacher's Association meeting at Central High this afternoon.

L. A. Johnson, '36, escaped unharmed when a taxi-cab backed into his motorcycle last week in Chicago, where he had gone to see the Century of Progress Fair.

## Figures Out How Cardinal Grid Squad Could Be National Football Champs

Leo Pearey

Sometimes it's fun (lots of fun) to sit down and figure just how good a team is 'on paper'. How do you like this?—

IF—nice word—Omaha would beat Washburn Friday night 14-0, just for round figures, they could beat Notre Dame also 14-0. How?—Well, here it is, Tulsa University beat Washburn 7-0, Kansas tied Notre Dame 0-0, Tulsa surprised the Jay-hawkes 7-0, therefore Omaha can (on paper) beat Notre Dame and Kansas 14-0 and Tulsa 7-0.

A few weeks ago Kansas beat Creighton 14-0, henceforth and as I am getting short of paper Omaha can swamp Creighton 28-0 and IF (there's that word again) Kansas can tie Nebraska, Omaha not only should be in a tie for first place in the N. I. A. A. but would also be Big Six champs.

Therefore being as how the predictions are that Michigan will beat Iowa (hope not) and that the Wolverines will go to the Rose Bowl game if they do, and that if Nebraska beats Iowa more than Michigan, Omaha should go to the Rose

Bowl instead and be National Champions. Congratulations, boys. Are you getting tired? If not, please stay with me because here comes the jolt. In a practice game last week between the varsity and the Cardinal nubbins, the nubbins were able to shove over a touch down. Therefore (Whew) there will have to be a New Years Day game between the varsity and nubbins to determine which one of Omaha University's football teams is the world champion.

If the nubbins should win that would make them beat Notre Dame 21-0—(nertz, you figure the rest out, I'm tired and out of paper).

Note—We will continue next week IF Omaha beats Washburn.

## Recreation Leader Speaks Before Class

Mr. J. B. Bachtor, district representative of the national recreation association, spoke to Dr. Sullenger's Sociology class Wednesday morning on the subject of recreational leadership. Mr. Bachtor is conducting the recreational training school this week under the auspices of the Omaha Council of Associated Agencies.

## Plan Pledge Dance, Then Paddle Pledges

The Thetas held their last meeting at the home of Glenn Cunningham, '35. Plans for a pledge dance, to be held November 3, were definitely settled. Pledges were paddled. The next meeting will be held at Bennett Johnson's home, 6314 Florence Blvd., October 30.

Piano pupils of Mary Charlotte McGonigle, '35, gave a recital at her home Sunday afternoon, October 1.

**I keep coming back  
to that word "balanced"  
on the back of the  
Chesterfield package**

**YOU** often hear the word balance  
—something is out of balance  
—top-heavy, not on an "even keel."

What you read, "Chesterfield Cigarettes are a balanced blend," means that the right amounts of home-grown tobaccos—the right kind, the right quantity—are blended and cross-blended with tobaccos from Turkey and Greece.

When these tobaccos are balanced one against the other, then you have a mild cigarette, a better-tasting cigarette.

May we ask you to read again the statement on the back of the Chesterfield package? May we ask you to try Chesterfield?

# Chesterfield
